Safe travels!

Yes, Erica has reached out to schedule something next week and a phone call with you this week sounds good as well.

Re: workplan discussion – If you want to try to reach me before the 9:30 GB meeting with any questions that could work, I am free until 8am your time. And I leave for the day at 12:30 your time today.

Friday is your CDO but I am available until 12:30 that day as well.

Next week I will be remoting into a Wetlands training in R9-so I will be on SF time which may make it easier.

If you want to talk next week on workplan, then please let me know when you would like as you know better what times would work for you. (i.e. which appts you can skip)

One suggestion may be potentially we could talk during/after my PARS on Wednesday and then with Erica Thursday or Friday?

Yes the workplan is quite lengthy. I understand they received written comments from 3 GB members which is more than in the past. The tables make the document longer but we developed to pull the actual tasks out of the narrative which provides a lot of the context for readers.

Hope it's a good meeting. I think you will see a more an engaged GB.

Hi Molly. I'm on my way to the airport for the Santa Monica meeting tomorrow. I'll be spending some time with Tom after the meeting. Talked a bit with Erica before leaving and have her files. I would like us to have a three way conference call with you me and Erica to help facilitate the smooth hand off. I'll leave it to you and Erica to set up a time that works. Is this ok?

Also I would like to talk with you sooner about the work plan which is still in need though its length is certainly impressive. Would it work to set something up to talk before the end

of next week?

Hope all is well. I'm looking forward to hearing how it's going.
